31. List of Departments with available facilities

LIST OF DEPARTMENTS AND FACILITIES

For a Medical College Permitted in 2022 – NMC UG Requirements and NMC UG MSR 2023

Purpose: This document consolidates the principal departments and facilities relevant to an MBBS medical college permitted in 2022, with reference to the regulatory framework applicable at that time and the facilities specified/emphasized in the NMC Undergraduate Medical Education Regulations/Minimum Standard requirements of 2023. The 2023 MSR should not be treated as retrospectively replacing the regulatory basis of a college permitted in 2022; applicability depends on the college's approval/renewal status and the relevant academic year.

Important note: For an inspection, renewal, or compliance submission, the latest NMC notification, Gazette, college-specific Letter of Permission/renewal conditions, and applicable seat-strength requirements should be checked.
